WATER PAPER è la prima carta a secco realizzata senza lattice e per questo biodegradabile, compostabile ma soprattutto IDROSOLUBILE. Questo permette di smaltire il prodotto sia nella carta che nell'umido, nel rispetto delle vigenti normative ambientali, garantendo così anche un vantaggio economico. Chi sceglie questa tipologia di prodotto esprime sensibilità e rispetto per la natura; qualità che oggi vengono molto apprezzate.

WATER PAPER is the first airlaid made without latex and, therefore, biodegradable, compostable and above all WATER-SOLUBLE. This property allows the product to be disposed of, in compliance with the current ecological regulations, both in the wastepaper and organic bin, guarantying also an economic profit. Whoever chooses this type of product shows sensitivity and respect for the environment; nowadays these qualities are highly appreciated.

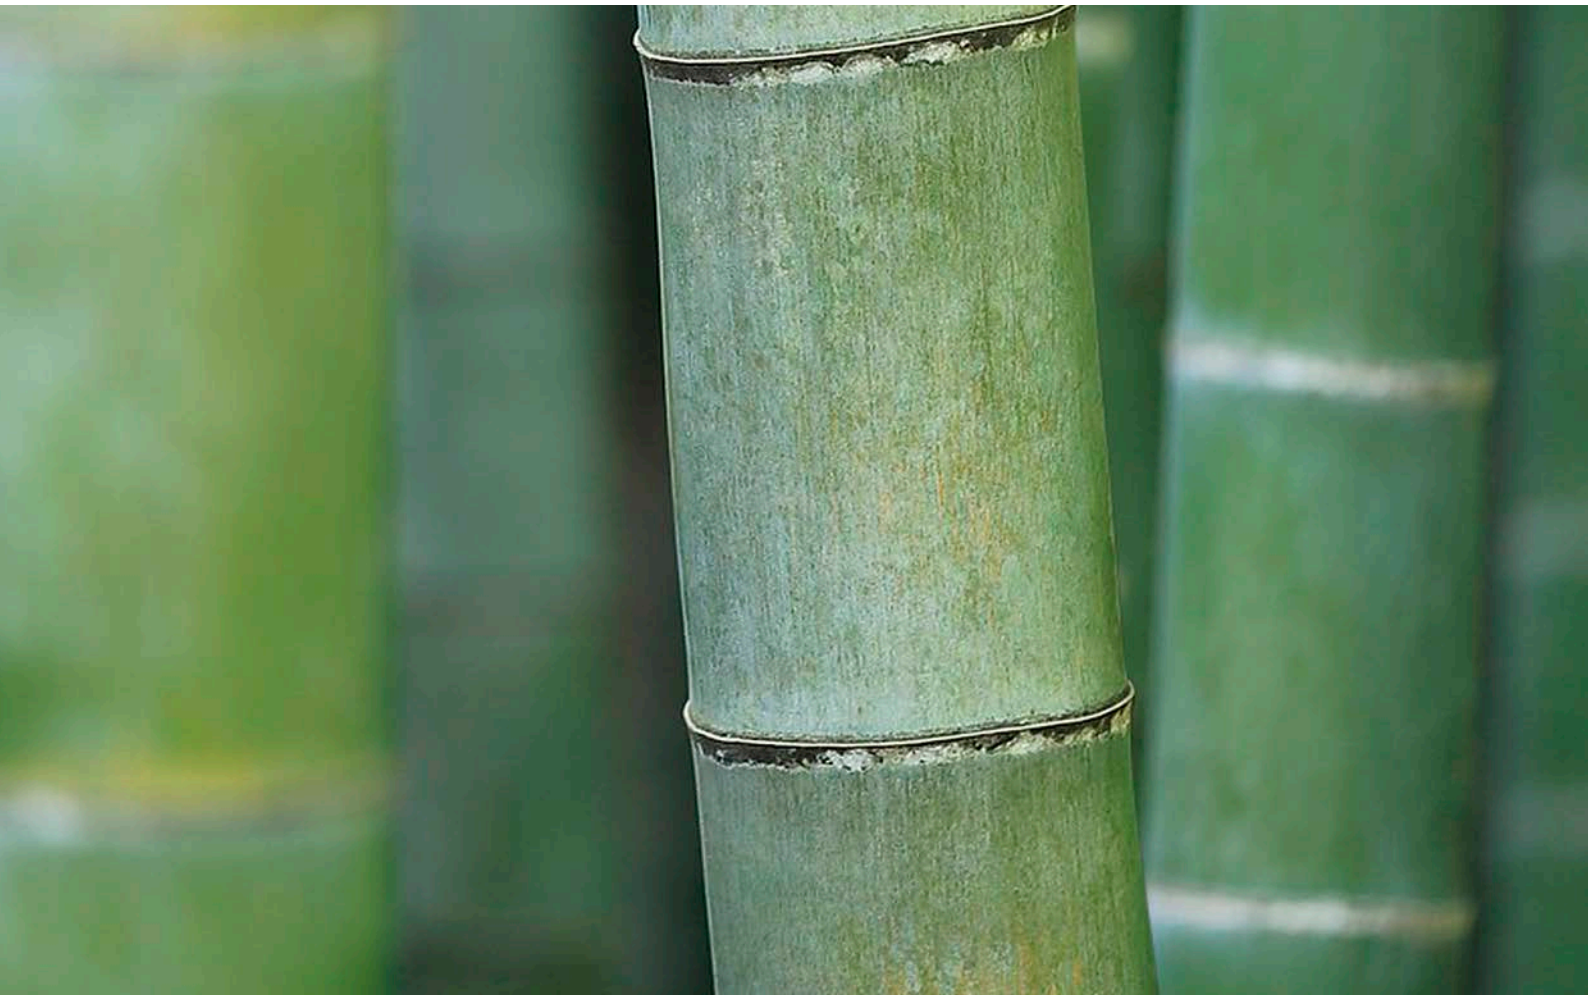
eco bambook



I prodotti ECOBAMBOOK sono composti da fibra vegetale e pertanto biodegradabili e compostabili. Tale fibra è una delle più sostenibili in natura poiché, grazie alla rapida vegetazione della pianta, la cellulosa ricresce in un breve periodo di tempo. Tutta la linea ECOBAMBOOK è caratterizzata da una morbidezza ineguagliabile abbinata a una resistenza incredibile.

ECOBAMBOOK products are made of vegetable fibres and, therefore, biodegradable and compostable. This fibre is one of the most sustainable in nature because, thanks to its vegetation rapidity, the cellulose reforms itself in a very short period. These products are characterised by an incomparable softness and an incredible resistance.
